The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/568,722	Applicant(s) ERIKSSON ET AL.	
	Examiner Stephen Gravini	Art Unit 3749	

– The MAILING DATE of this communication appears on the cover sheet with the correspondence address –
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20, 27-28, and 31 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bothe et al. (US 5,220,753). The face of that reference discloses each of the claimed features.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 21-26 and 29-30 and 32-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bothe in view of Hobbs et al. (US 4,050,900). Bothe discloses the

Art Unit: 3749

claimed invention as rejected above, except for the claimed wavelength ranges and reflective material. It would have been an obvious matter of design choice to recite those features, since the teachings of Bothe would perform the invention as claimed regardless of the claimed wavelength or material. Furthermore, Bothe in view of Hobbs discloses the claimed invention, except for the claimed dampers and control system. Hobbs, another method for dehumidification and/or sanitation of sewage sludge, discloses those features at column 8 line 67 through column 9 line 24. It would have been obvious to one skilled in the art to combine the teachings of Bothe with the dampers and control system disclosed in Hobbs for the purpose of providing a more efficient control dehumidification process in a cost effective controlled manner.
